

SELECT DATACARD® TRU™ PHOTO SOLUTIONS FOR FAST, EASY IMAGE CAPTURE

With an integrated image capture solution, you can complete the process with one click of the mouse. Capture, cropping and importing take seven seconds or less.

DATACARD® TRU™ PHOTO SOLUTIONS

The Datacard® Tru™ Photo solution is completely software-driven and includes a digital camera, camera accessories and Tru™ photo software. Device drivers are integrated with the software, so the solution is easy to install and requires very little set-up time. Tru photo solutions are engineered to integrate seamlessly with the entire family of Datacard photo ID software solutions.

- **One-click capture.** Operators click once in the image field and the image is captured, cropped and imported in less than seven seconds.

- **Live video.** Preview images on a computer monitor before capture.

- **Auto capture.** Operators do not need to preview the image, pan or tilt the camera during capture.

- **External high-powered flash.** When you need more distance between camera and subject.

- **Auto crop.** Operators do not need to crop images. Images are automatically cropped based on settings defined during set-up, which helps ensure consistent cropping.

- **Photo enhancement screen.** Shows up to 27 thumbnails, each with a unique combination of brightness, saturation and contrast.

SECURE ID AND CARD PERSONALIZATION SOLUTIONS

TO CAPTURE AN IMAGE

DATACARD TRU PHOTO

1. Click once in image field

Done

One step to capture, crop and input image to photo ID software

TWAIN/VFW

1. Pan camera

2. Tilt camera

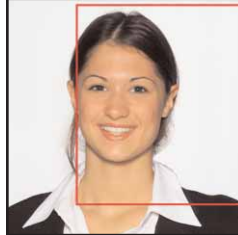

3. Zoom in

4. Re-center

5. Start crop

6. Center crop box

7. Crop image

8. Zoom out / reset

Multiple steps to capture, crop and input image to photo ID software

*TWAIN and VFW are industry standards. The camera manufacturers determine how much of the standard they use. Therefore the steps to capture images are not the same from camera to camera.
